

Gluten-Free Products the Entire Family Can Enjoy

Here at Jones we understand the challenges faced by individuals diagnosed with celiac disease and those who care for them. Gluten can often be hidden in processed foods, which can complicate the grocery shopping experience. Therefore, it's important to read food labels carefully and contact manufacturers if you are unclear about a certain product or ingredient.

We have a 120-year heritage of producing a wide variety of quality, gluten-free products including Canadian bacon, hams, bacon, braunschweiger, and all natural sausage. Jones offers almost 50 gluten-free items available in retail stores and online at jonesdairyfarm.com.

Dozens of gluten-free recipes including appetizers, breakfast, lunch and dinner entrees are available on our website. Our gluten-free products can be served to your family with confidence and are all delicious additions to gluten-free diets.
